## Look What We're Studying...

**Religion:** We are writing a "Letters to God" book. Look for it to come home in about a week. We will begin learning the prayer Hail Holy Queen.

**Math:** We are continuing our chapter on adding and subtracting triple digit numbers. I am also teaching them how to copy number problems from their workbook page to a piece of notebook paper.

**Science:** The class is fascinated about how the human body works. We will have a test on Tues., May 15

**Soc. Studies:** We are finishing up Unit 6 on consumers, producers, goods, and services. The test will be Fri., May 18.

**Writing:** We write a journal page every Thursday that highlights events that your child thought was important. These pages will be put together in a book at the end of the school year.
